

Saurabh Tiwari

Software Engineer

9340228113 | 10c.saurabhtiwari123@gmail.com | [LinkedIn](#) | [LeetCode](#) | [Github](#)

Summary

Experienced backend developer leveraging Node.js, MongoDB, and Express.js to create efficient, scalable solutions. Proficient in JavaScript, TypeScript, CI/CD, Docker, and Terraform. Adept at crafting high performance backend architectures and collaborating with functional analysts and SAP developers to deliver robust APIs.

Education

Rajiv Gandhi Proudhyogiki Vishwavidyalaya	2018 – 2022
Bachelor of Technology in Electronics and Communication	CGPA: 8.75/10
ST Gabriel's Senior Secondary School	2017–2018
Class XII	Percentage: 76%

Technical Skills

Languages: TypeScript, JavaScript, Python
Frameworks: Express, Django
Databases: MongoDB, MySQL
DevOps & Tools: Docker, Azure DevOps, Git, Terraform, Kubernetes
Coursework: Data structure and Algorithms, Object Oriented Programming, Database Management System
Industry Best Practices/Principles: SOLID principles, Low Level Design, High Level Design

Experience

Software Development Engineer (SDE) - Jio Platforms Limited	July 2022–Present
<i>Technology Used - JavaScript, Node.js, Express, MongoDB, Mysql, Docker, Kubernetes, Git, Azure Devops</i>	
- Integrated backend services with frontend applications, enhancing performance and user experience, and collaborated with frontend developers to ensure seamless API integration. - Secured REST APIs with JWT and OAuth 2.0, implementing robust authentication and authorization for data protection. - Resolved complex backend issues by diagnosing root causes in cross-functional teams and developing effective, lasting solutions.	

Projects

SIMLogBook <i>Node.js, MongoDB, Express.js, JWT, TypeScript</i>	
Developed an application for SIM manufacturers, capturing data like kit numbers and pressure readings to streamline operations. Secured access with JWT and optimized MongoDB for efficient data retrieval.	
Jio Local Distributor (JLD) <i>Node.js, MongoDB, Express.js, SAP Integration</i>	
Created backend APIs for a distributor platform, enabling order management, shipment tracking, and SAP integration for seamless data flow.	
Marcom <i>Node.js, Express.js, MongoDB</i>	
Built APIs for a campaign management tool, facilitating campaign creation and tracking with efficient data storage and high-performance querying in MongoDB.	
Personal Portfolio <i>Vercel, JavaScript, React, HTML, CSS, Express, Node.js</i>	
Developed and deployed a portfolio website to showcase projects and skills, featuring a responsive design
